

## **GPN-GL12 Purchasing Guidelines for**

# **Television Sets**

Green Purchasing Network (GPN)

### **1. Scope**

These guidelines cover important environmental issues that shall be considered when purchasing television sets.

### **2. Guidelines**

When purchasing television sets, the following articles shall be considered for purchasing products with as little environmental burden as possible.

- (1) Minimum power consumption during operation and stand-by mode
- (2) The manufacturer provides full maintenance service in order to make long-term use feasible
- (3) Designed to facilitate disassembling and recycling of component parts
- (4) Made of recycled plastics as much as possible
- (5) Does not contain lead, mercury, cadmium, hexavalent chromium compounds, or specific bromine-based flame-retardants (PBB, PBDE), to the utmost extent possible

\*These guidelines are subject to change in accordance with new findings and changes in social conditions.

Established July 26, 2000

Revised February 23, 2004, January 13,  
2007, and February 8, 2014

Latest Revised June 20, 2017
